

INCEPTION

You are Ellen Page in the movie Inception!

BRRRRRRRAAAAAWWWRWRRRMRMRMMRMRMMMMMM!!!

BRRRRRRRAAAAAWWWRWRRRMRMRMMRMRMMMMMM!!!

BRRRRRRRAAAAAWWWRWRRRMRMRMMRMRMMMMMM!!!

It is your task to design a city that Leo's ... I mean Cobb's Bat Shit Crazy Wife can't find her way around and thus keep her away from you!!! You must follow these directions exactly or else the projections will find you and kill you!!! Which would send you into a dream within a dream within a matrix inside Keanu Reeves' dream!!!!!!!

- 1) Not really a step, but still follow this!!! Make sure that what you are drawing actually looks like a city map!!!! You have seen Google Earth before! Make it look nice! :) Oh and sadly no shading :(Only "Hard Lines"
- 2) Draw a rectangle that doesn't intersect any other drawn shapes or city features. This rectangle must be inline with other previously drawn shapes (you are trying to make a city map, so this rule is basically saying make streets of uniform width)
- 3) Repeat Step 2 7 more times!!!

- 4) Improvise!!!! Draw a traffic circle, park, fountain, bridge, river, or something that would fit in a city! Don't let it intersect with previous drawings!!!! Remember NO SHADING!!!
- 5) Start back at Step 1 again!!!! Continue until I say stop!!!!
